Annual Progress Report - Calendar 2015

Substances for which toxic substance reduction plans have been prepared:

| Substance | CASRN |
|--------------------|------------|
| Carbon Monoxide | 630-08-0 |
| Oxides of Nitrogen | 11104-93-1 |

Plan Objectives

Sonoco's goal is to reduce the use and release of the above noted substances where technically and economically feasible. Based on currently available information and technologies, there are no technically and economically reduction options currently available for these substance. However, Sonoco will continue to explore and investigate potential options as they arise as part of their sustainability programs.

Toxics Reduction Progress

The reporting period saw virtually no change in the reported quantities of both substances. In terms of the main equipment, the natural gas used by the cogeneration turbine increased slightly in the current year whereas the natural gas used by the boiler and ancillary equipment (e.g., comfort heaters) decreased in 2015 relative to 2014.

Plan Implementation Progress

There were no reduction options identified in any of the plans for the above noted substances that were identified as being both technically and economically feasible. As such, there were no timelines presented in the reduction plans for the above noted substances. However, Sonoco will continue to explore and investigate potential reduction options as they arise as part of their sustainability programs.

As there were no anticipated reductions noted in each of the plans for the toxic substances noted above, there were no reductions of any toxic substances during the reporting period that would be attributable to any reduction plan.

Certification Statement

As of May 26, 2016, I certify that I have read the reports on the toxic substance reduction plans for Carbon Monoxide (CO) and Oxides of Nitrogen (NO_x) and am familiar with their contents and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under the Act.
